

Safe Assembly Of Hoses With **LÜDECKE** As Developing Partner

High-quality coupling systems are the premise for a reliable and safe operation with flexible hose lines – regardless of working area and used media. However, only the functional interaction of all the affiliated components achieves a permanent and satisfying result.

Therefore, **LÜDECKE** is specialized in safe assembly of Hose Lines. With your desired hose line we will advise you to choose the right fitting and correct assembling method.

As an experienced manufacturer of high-quality fittings, you benefit from our know-how and our superior testing possibilities. In addition, **LÜDECKE** employs an accredited hose assembly inspector and tester. When the hose line is complete and assembled, we test it under conditions which are as close as possible to realistic operation conditions, whereby a reliable statement about the suitability for the intended application can be made.

Due to our complete in-house production, **LÜDECKE** is able to develop, produce and test a customized solution – fast and flexible.

REQUIRED INFORMATION FOR THE TEST:

- Sample of desired Hose
- Working and Environmental Temperature
- Hose Line Working Pressure
- Conducted Media
- Outer Stress (static / dynamic)
- Height and Frequency of possible Pressure Surges

For more information please see our new Info-Flyer or visit www.luedecke.com.

Since more than 80 years, Lüdecke is the leading partner for developing, engineering and providing coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

Lüdecke with its headquarters in Amberg, Bavaria manufactures fittings and couplings for a variety of industrial applications for gaseous and liquid medium. The products are offered via our certified technical partners worldwide. Or the products are assembled / integrated by leading machine manufacturers in their own products.

The product portfolio provides a comprehensive range of industrial and customized solutions - Engineered and Made in Germany.

Lüdeckes quality management is accredited with ISO 9001-2008 since 1994, which also means that we permanently improve and revise the process of our company. Our quality standards exceed consequently the worldwide given requirements. From July 2015 on is also certified according to the environmental management (ISO 14001-2004) and energy management (ISO 50001-2011).
