

## For Elevated Hygienic Requirements: The **LÜDECKE** MODY-CleanConnect Spiral Hose made of Polyurethane

**Clean  
Connect**  
by **LÜDECKE**

For applications with specific hygiene standards or for conveying various critical media we recommend the new MODY Clean Connect spiral hose.

The spiral hose is made of high quality, transparent polyether polyurethane and disposes the common regulations for the food sector.

The hose is resistant to microbes and hydrolysis and free of taste and smell. It has a high abrasion resistance, pressure and wear resistance as well as an extreme and constant recoil of the spirals. Moreover, the hose is characterized by its resistance to oil, gas and chemicals and its good cold flexibility.

Due to its characteristics, the hose can be perfectly used in the food industry (e.g. food conveying of dry, watery, acidic and fatty foods), in the pharmaceutical industry, for flexible compressed air supplement or in various other applications with liquids, gases and abrasive solids.

The hose is also available as set with matching quick connect coupling and plug as well as non-spiralled piece goods.

---

Since more than 85 years, **LÜDECKE** is the leading partner for developing, engineering and providing coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

Since 1949, we have been manufacturing fittings at the headquarters in Amberg for a variety of applications and media, which are distributed throughout over 120 countries worldwide by the technical trade or used by the leading machine manufacturers (OEM) in their own machinery.

The product portfolio is comprised of a comprehensive standard range as well as individual custom item projects - Engineered and Made in Germany.

**LÜDECKE**'s quality management is accredited with ISO 9001-2008 since 1994. Our quality standards exceed highest requirements. From 2015 on we have also been certified according to the environmental management (ISO 14001-2004) and energy management (ISO 50001-2011).
