

## LÜDECKE Products now available on Traceparts

All coupling systems from the pneumatics, temperature regulation and construction product areas are now available on the TraceParts CAD platform.

With TraceParts, **LÜDECKE** has entered a cooperation with one of the world's leading suppliers of digital 3D content for mechanical engineering.

This comes along with numerous advantages, especially for engineers and planners:

In the digital library of parts, registered users from all over the world can not only view data and images of **LÜDECKE** products – but over 60 different CAD and graphic formats are available for download, which in turn can be directly integrated into the respective CAD system. This allows for a fast and uncomplicated development process.

A service that will now be a standard:

**LÜDECKE** product contents will of course be constantly updated and expanded. This means that the complete catalog range (including various special series) will be available on TraceParts by the end of the year.

### **LÜDECKE** & TraceParts:

Since more than 90 years, **LÜDECKE** is the leading partner for coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

Since 1949, we have been manufacturing fittings at the headquarters in Amberg for a variety of applications and media, which are distributed worldwide by the technical trade or used by the leading machine manufacturers (OEM) in their own machinery

We are developing and producing first-class, innovative and sustainable products according to the highest quality standards. The product portfolio is comprised of a comprehensive standard range as well as individual custom item projects.

Thanks to our broad product range, our many years of know-how and our versatile range of services, we always guarantee safe and efficient solutions for your daily work. More information at [www.ludecke.com](http://www.ludecke.com)
